Past Winners on Their AISC (NAAIM Shark Tank) Experience:

1st Place Winner – 2018 | David Moenning, Chief Investment Officer, Heritage Capital Research

"I can't say enough about the NAAIM Shark Tank Strategy Competition or the NAAIM community in general. Having recently left a CIO position at a large RIA firm, I was looking for an opportunity to showcase my new consulting service. The strategy I presented to the Shark Tank was very well received and within 6 months of the competition, I had acquired 8 new business relationships. I am pleased to report that my services are now promoted on 4 multi-manager platforms and I have a multitude of advisors to work with. I would encourage anyone looking to promote their business to participate in the NAAIM Shark Tank Strategy Competition."

1st place winner – 2017 | Rich Paul, President, Potomac Advisors

"I entered the Shark Tank for the 2015 competition. I had sold my prior company years earlier but had a non-compete until 2014 when I sold my remaining shares and decided to take my 12-year EVO trading system and track record to the Shark Tank challenge. After placing third, my assets began to grow substantially, even before winning the competition last year. Today our assets primarily through licensing, using just the EVO strategy, have grown to \$370m. I have to credit my participation in the Shark Tank for the exposure in getting to this level."

1st place winner – 2016 | David Bush, Managing Member, ALPHATATIVE LLC

"Winning NAAIM's Shark Tank strategy competition has been invaluable on many levels. As a manager previously immersed solely in the hedge fund world, joining NAAIM opened several new avenues of opportunity I simply hadn't been aware of before. Additionally, the community of fellow tactically-oriented managers willing to share ideas and resources was a truly welcome surprise. Without question, the Shark Tank victory has helped my business grow, and I believe that my continued association with NAAIM will only help further the future growth of my business."
